- 

## **UNIQUE QUALIFICATIONS**

I am an eco-feminist. I believe in the ecosystem sustainability and an inclusive gender approach in leadership. I am also an environmental engineer, an entrepreneur, a leader by example in the climate change and environment sector. I am passionate and committed to finding ways to increase the engagement of youth in climate and environment policy at all levels. I believe in the ability of youth to design, shape and contribute to building the future that we all want to see. I am a leader by devotion. I do not quit when I face a challenge in the design and implementation of a solution for my community. Rather, I learn how to be a solution maker at every step along the way and see challenges as opportunities.
